

## Recall Worksheet

If you have 30 minutes or more of free time and if after 9am, you have two options:

1. Clock out, or
2. Help the office with our recall program.

There is no one better to help our patients with recall than our hygienists.

You believe in it and have specialized knowledge to best educate and serve our patients.

If you run out of lines, use a 2<sup>nd</sup> sheet.

[illegible]
